

---

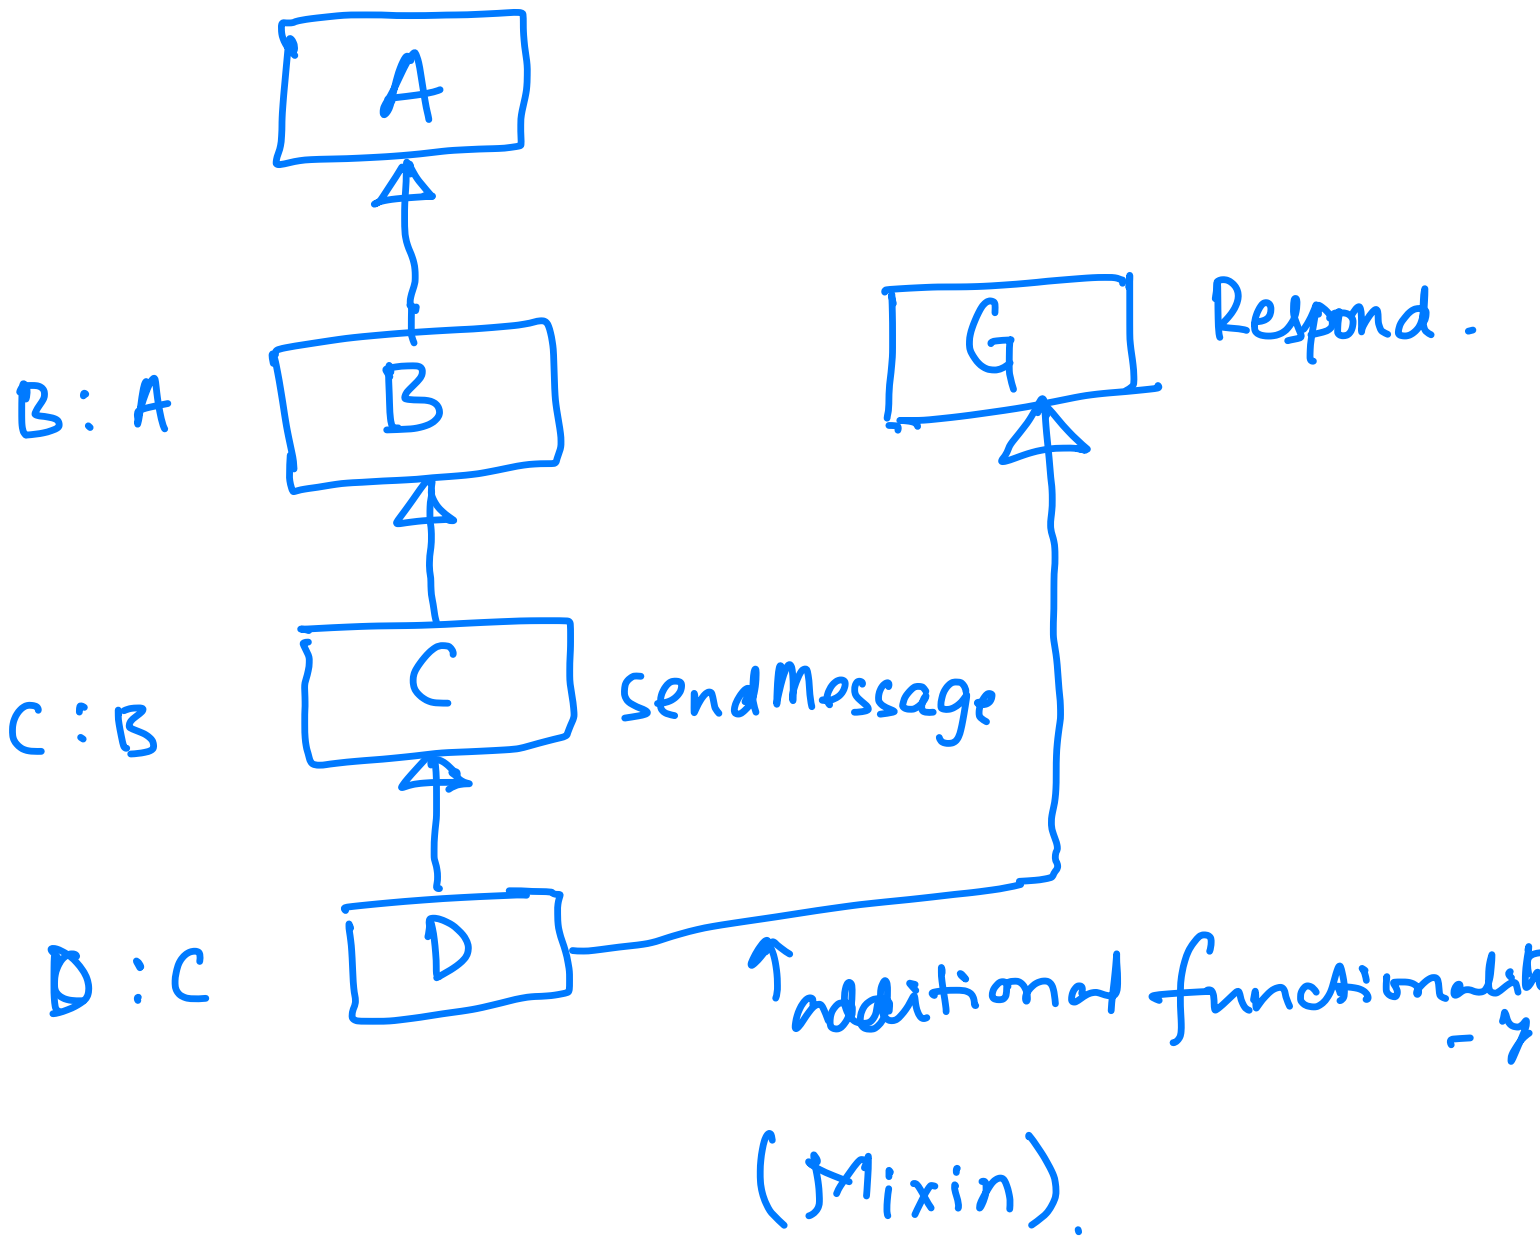

---

---

---

---

You cannot have multiple class inheritances.

---

Interface is introduced to solve the problem of mixin.

-foo() {

int i = 100;

Vehicle v = new Vehicle();

value

}

Reference

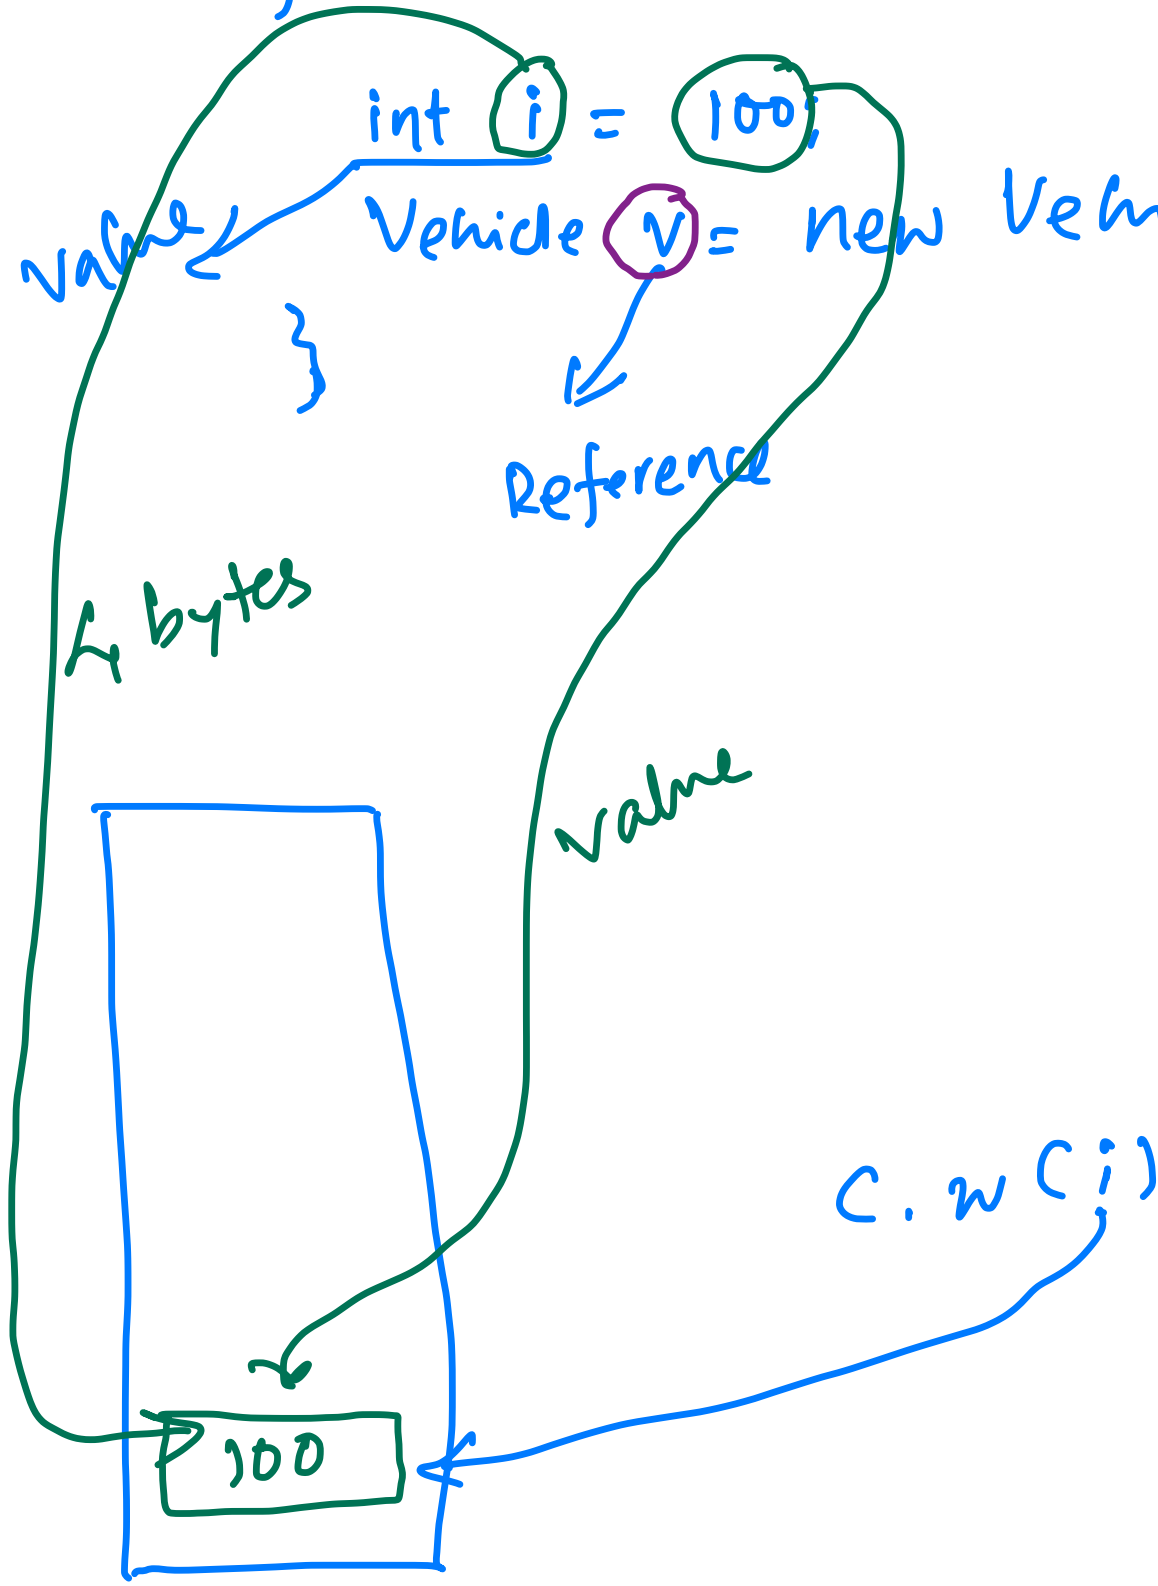

4 bytes

value

c.w(i)

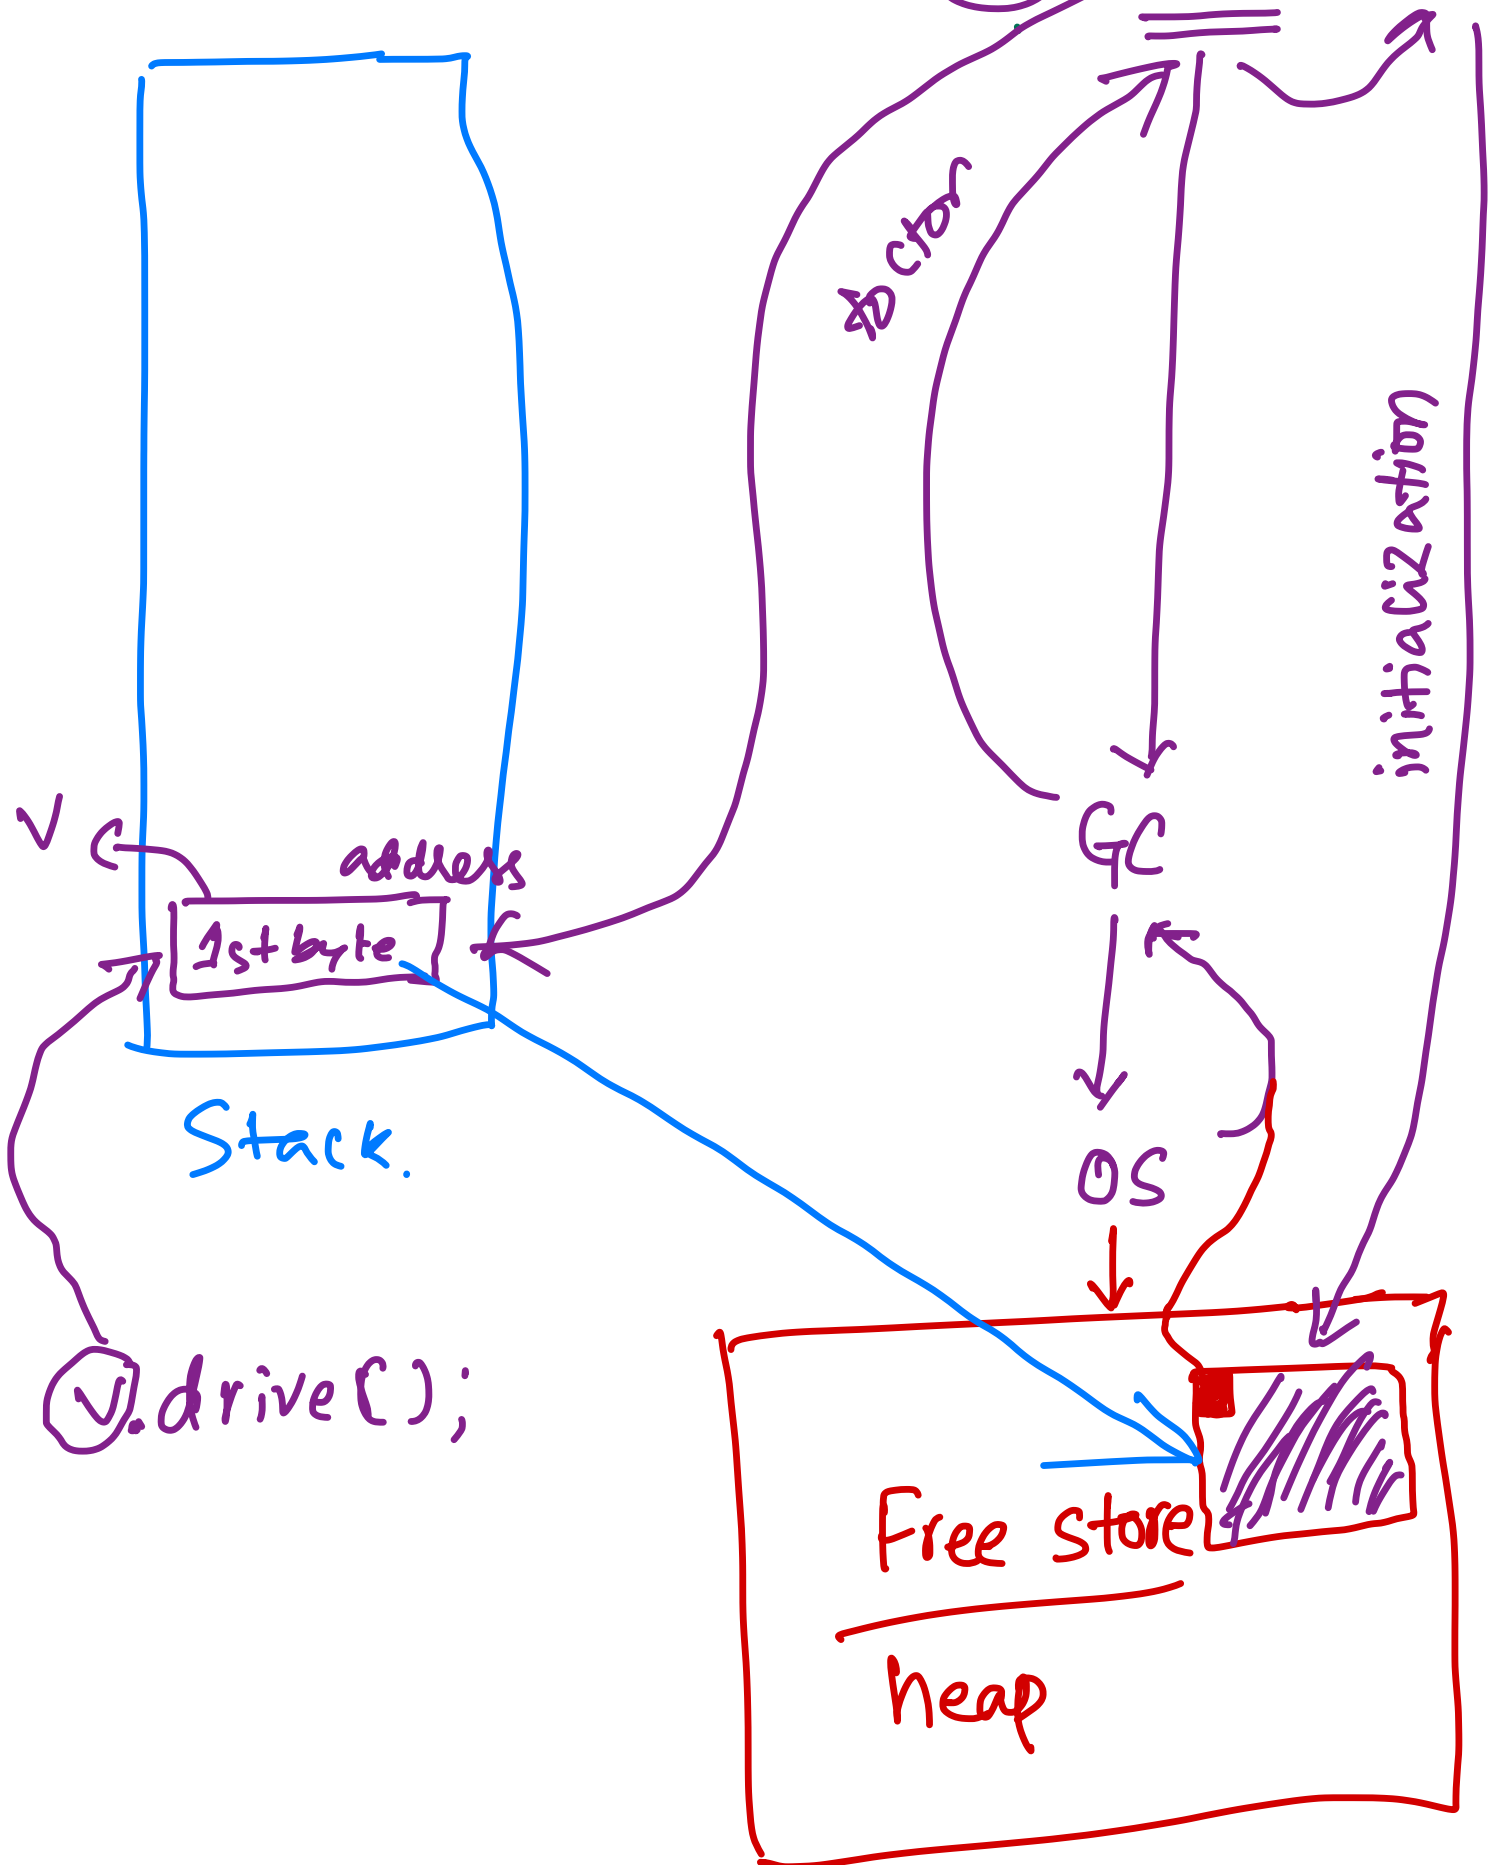

100

Stack → memory for local variables

Reference types: class, interface

Vehicle V = new Vehicle();

int i = 100;

int j = i;

i = 234;

j

i

100

234

MessageSender ms1 = new ...

MessageSender ms2 = ms1.

ms1.Title = "Good";

cw(ms2.Title)
